CUT HERE	Cannabis can be used as medicine		

There is a lot of information about cannabis and sometimes that information varies, depending on where it comes from.

# Worksheet 2: Take home worksheet

Cannabis can have many different effects on people and someone who uses cannabis more than once can have a different experience each time. This is because so many factors influence the effect that cannabis will have on a person.

**This activity looks at different pieces of information about cannabis and considers whether the information is fact, probable, possible or fiction.**

1. Write your statement here:

---

---

---

---

---

---

---

---

---

---

---

3. What information can you find against your statement? Where did you find this information?

---

---

---

---

---

---

4. What category would you put this statement in? Explain why.

Fact                  Probable                  Possible                  Fiction

---

---

---

---

---

5. After the class/group discussion, what did you learn that was new?

---

---

---

---

---

**Worksheet 3: Four categories**

Place your statements in the box you think is most appropriate.

<b>Fact</b>
<b>Probable</b>
<b>Possible</b>
<b>Fiction</b>

## Worksheet 4: Student reflection worksheet

This activity looks at different pieces of information about cannabis and considers whether the information is fact, probable, possible or fiction.
