

How does Cannabis affect my work performance?

THE WHEEL OF WEED EIGHT

BIG REASONS WHY NO ONE WANTS TO WORK WITH BUD

1. Decreased alertness

makes a stoned guy with a nail gun the start of a horror movie!

2. Paranoia
makes you think your workmates are out to get you... and maybe they are!

3. Impaired short-term memory

makes... um...?

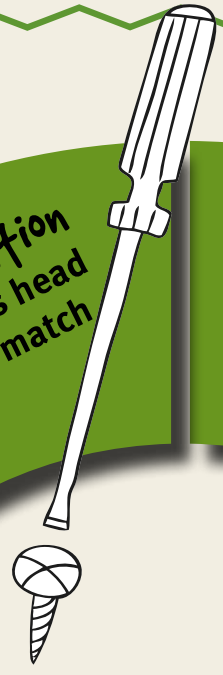

4. Slower reaction time

makes the only thing worse than being the stoned guy with a nail gun, being the stoned guy dodging the nails!

8. Poor Coordination
makes a phillips head and a screw, a match made in hell!

7. Greater risk of respiratory illness

makes your persistent cough the loudest noise in the office.

6. Declining motivation
makes that big project impossible to finish.

5. Trouble concentrating
makes an electric saw part of your manicure routine.
